OVERVIEW

Evan Rosing provides legal and business counsel to a variety of companies ranging from startups to global corporations in matters involving the sourcing, commercialization, use and protection of intellectual property, technology and technology-enabled products and services.

Evan is able to bring a practical approach to his practice from years of experience in-house with a financial data and software company and a Big 4 accounting firm as well as being a founder of a technology startup.

REPRESENTATIVE EXPERIENCE

Representative Transactions Include:

- Negotiated data supply and distribution agreements with third party data vendors, including international and domestic data exchanges for inclusion for an industry leading financial workstation product.
- Counseled a Puerto Rico-based Medicare payer in a multiyear transaction for the outsourcing of its claims administration and adjudication processes and related software and processing services transaction.
- Advised a healthcare, lifestyle, and lighting company in its acquisition of an alternative energy generator and related services.
- Represented a sports technology vendor in a licensing transaction that provided solutions for monitoring human performance for swimming and triathlons industries.
