GRSM's Baltimore attorneys work with clients with businesses and commercial interests in Maryland and throughout the Mid-Atlantic region. Our office opened in 2012, and professionals here often work closely with colleagues in Alexandria and Washington, D.C.

Our team has a strong history of handling employment law issues, diversity counseling, and affirmative action compliance. Healthcare and construction-related legal counsel and dispute resolutions are areas of notable depth.

Additional areas of experience include government contracts, government investigations and enforcement defense, intellectual property, insurance coverage, real estate, class actions, professional liability defense, and commercial litigation.

We also advise and represent clients on matters related to advertising and e-commerce and artificial intelligence, including regulatory compliance, transactions, licensing, and agreements.

Collectively, our attorneys in the DMV collaborate to further clients' success across our 50 state, full-service platform.
