GRSM's presence overlooking Lake Erie is home to litigators and transactional lawyers serving public and private clients across Ohio, the region, and the United States.

GRSM's litigation bench offers breadth and depth on high-stakes matters up to the appellate level, including the Ohio Supreme Court.

We handle complex commercial litigation, energy and eminent domain, class actions insurance coverage, trade secret/non-compete, mass tort, employment, products liability, and professional liability, among other areas of litigation.

Many of our Cleveland attorneys also focus their practice on employment and labor matters and are called upon by clients to handle employment disputes and labor negotiations across the country.

Since GRSM's launch of its Ohio offices in 2017, our attorneys have regularly navigated state and federal administrative actions and investigations and played significant roles in multidistrict litigation. We collaborate with colleagues and support clients throughout the state and region, often working closely with the firm's offices in Columbus and Cincinnati.

We are active members of organizations throughout the state. GRSM attorneys are members of the Ohio State Bar, Cleveland Association of Civil Trial Attorneys, Cleveland Metropolitan Bar Association, Ohio Association of Civil Trial Attorneys, Energy Mineral Law Foundation (EMLF), DRI, and other legal, business, and civic associations.
