GRSM's Des Moines office maximizes the benefits of working in a city that serves as headquarters for several financial and insurance services clients, among others. We have extensive experience in the many legal issues that industry-leading companies and professionals face.

Areas of practice focus include commercial litigation, employment, pharmaceutical and medical devices, healthcare, product liability, insurance, and professional liability defense.

The background and skills of our Iowa team readily support the collaboration model of our 50 state, full-service platform, and they are often called upon to further our nationwide representation of clients and their companies.
