Our riverfront office in Harrisburg is located near the courts and the Commonwealth's Capitol Complex. Our attorneys here support an active litigation portfolio across the region and the firm's 50 state platform.

Our key practice areas include complex commercial litigation and healthcare law. We also focus on several other disciplines, including insurance coverage (including self-insureds), product liability, professional liability defense, and toxic tort disputes and matters.

The professionals in our Harrisburg office represent local, regional, and national employers and businesses, including financial institutions and hospitals. We frequently collaborate with colleagues in Pittsburgh to the west and Philadelphia to the east, ensuring comprehensive coverage across the region.
