GRSM's team in Hawai'i covers the state with litigation and transactional services that provide national and regional clients with consistent, integrated counsel across all their matters. Our office, opened in 2020 in Honolulu on Oahu, is home to attorneys who have distinguished themselves in Hawai'i as experienced trial attorneys with decades of practice in the state.

Our Hawai'i team is able to serve clients in all facets of litigation, and our approach leverages our 50 state platform to increase efficiency and support clients' business goals. We have a particular emphasis on construction law and litigation, commercial litigation, intellectual property, international law, and toxic tort. We have notable depth representing and advising architects and engineers on major public and private construction projects. Additionally, we are able to assist clients related to employment law, business transactions, and liquor license matters.

Our aloha culture furthers GRSM's commitment to diversity, inclusion, and community. Our Hawai'i licensed attorneys have a diverse background of prior experiences in various areas of law, which provides unique proficiencies for our clients. Our attorneys are also frequent collaborators with GRSM attorneys nationwide to provide strategic and efficient counsel on legal issues impacting our clients.
