GRSM's Las Vegas office opened in 2003 as the firm's first office outside of California. The office is conveniently located within one block of the federal, state, and bankruptcy courthouses. When first opened, GRSM's Las Vegas location focused on healthcare and construction. Over the past 20 years, the office has grown and so has its practice area capability. Our Las Vegas office now covers major areas of legal practice including healthcare, construction, commercial business disputes, professional malpractice, shareholder litigation, insurance environmental and toxic tort, and product liability.

Our business and commercial litigation docket is busy. We work to resolve cases as efficiently as possible, but when needed we can draw on the deep trial experience of our Las Vegas attorneys.

In addition to our Las Vegas-based litigators, the office is home to corporate and transactional lawyers. We advise on corporate entity formation and governance, mergers, acquisitions, and other issues.

Finance attorneys here have helped shape our practice in national financing opinions. We work with clients nationwide in large complex financing transactions that often involve numerous borrowers and guarantors.

GRSM attorneys in Las Vegas and in our affiliated office in Reno have diverse backgrounds. We have served as judicial externs and interns, as deputy city attorney, and in the Nevada Attorney General's office. We receive recognition from *Nevada Business Magazine* and *Best Lawyers in America*® and belong to the Clark County Bar Association, Las Vegas Defense Lawyers Association, and other legal and business

associations.

We strive to create a laid-back social atmosphere for our attorneys and staff. While we work hard, we also have fun. Among other firm activities, our office holds potluck lunches and an annual chili cook-off.
