Expanding our footprint to Wisconsin in 2017 strengthened our 50 state, full-service platform across the Midwest. Our Wisconsin attorneys support clients throughout the state and represent a range of employers, executives, business owners, entrepreneurs, franchisors, and insurers, among other clients.

Our Wisconsin team has significant experience in employment litigation and professional liability defense. We defend professionals, including lawyers, accountants, real estate professionals, and insurance brokers and agents, in civil and administrative proceedings throughout the Midwest.

Additional areas of concentration include insurance defense, business transactions, finance, corporate law, real estate, and hospitality law. Our proximity to Chicago adds further convenience and efficiency for clients and colleagues in the region. Several of our attorneys are admitted to practice in multiple states, including Illinois, Iowa, and Missouri, and collaborate seamlessly to serve clients nationwide.
