GRSM's California presence includes Ontario in the Inland Empire and San Bernadino County. Opened in 2021, the office expands our ability to serve clients in a region known for its industry and diverse communities.

The Ontario area supports the ports of Long Beach and Los Angeles, and our attorneys focused on trucking, transportation, and maritime matters handle issues and claims as they arise across the Southern California region.

As part of our cross-firm collaboration, our Ontario team serves clients with national and regional legal needs. Our legal professionals offer representation and counsel in commercial litigation, employment law, labor, securities litigation, real estate litigation, product liability, general liability, class actions, unfair competition, and advertising and e-commerce matters, among other legal disciplines.
