GRSM's Philadelphia attorneys are a formidable group of trial attorneys, litigators, and transactional counselors who advise businesses and companies in the region and nationwide. There are several notable areas of depth for our Philly-based professionals: aviation, employment, construction, product liability, manufacturing, environmental and toxic tort, and insurance defense, to name a few.

As Philadelphia's courts have increasingly become a magnet for litigation, GRSM's Philadelphia office has grown to meet our client's needs. Our attorneys are experienced in representing clients in asbestos, benzene, and other toxic tort cases.

We lead complex construction matters involving industrial projects, such as oil and gas, petrochemical, pharmaceutical, biotech, and power facilities. Our aviation team covers the full scope of the industry, including airlines, aircraft and component part manufacturers, fixed-based operators, and municipal airport owners and operators.

Our labor and employment attorneys regularly counsel employers of all sizes, from small businesses to Fortune 500 companies, and navigate them through all stages of litigation.

The Philadelphia office opened in 2013, and the city's geography makes it easy for attorneys here to coordinate and collaborate with GRSM colleagues in Pittsburgh, Harrisburg, New Jersey, and Delaware.

We have been selected for the Villanova University School of Law American Inn of Court and serve as

leaders and members of the Philadelphia Association of Defense Counsel, Third Circuit Bar Association, and the Philadelphia Bar Association. Within our communities, we support local Rotary Clubs, and the Girl Scouts and advocate for children and scores of causes and charities invested in the future of our region.
