Home to skilled litigators and transactional attorneys, GRSM's Pittsburgh office serves major clients in the region and supports our nationwide, full-service platform. Since opening in 2012, this downtown location has experienced exponential growth.

Our Pittsburgh teams specialize in various practice areas, including healthcare, professional liability, energy, real estate, construction, transportation, captive insurance, reinsurance, employment law, risk management, investment funds, venture capital, and commercial litigation.

Our office offers extensive healthcare law services, particularly in medical malpractice defense, licensing issues, compliance with governmental regulations, elder abuse, contract disputes, HIPAA-related matters, and more. GRSM is well-regarded in both state and federal courts throughout Pennsylvania. Our trial lawyers represent major corporations in Western Pennsylvania, particularly in high-exposure cases. We have a strong track record of handling environmental and toxic tort claims, including asbestos-related cases.

Energy law is also a significant focus. Our teams work with energy clients on litigation, regulatory compliance, acquisitions, and real estate matters. Clients include those involved in energy exploration and production, midstream services, renewables, oilfield services, and mineral acquisition.

We are deeply committed to our community. Our attorneys are Pittsburgh natives and alumni of local

universities and law schools. We actively participate in legal organizations, including the Allegheny County Bar Association and the Pennsylvania Bar Association. Additionally, our attorneys have served on the City of Pittsburgh Zoning Board of Adjustment and are involved with local nonprofits like the Greater Pittsburgh YMCA, Junior Achievement, and the Pittsburgh Venture Capital Association, among other groups focused on education, youth sports, animal rights, vulnerable populations, and other charitable causes.
