Partner

GRSM's Rapid City office has been a foothold for the firm in the Great Plains and Midwest since 2012. Our attorneys strengthen our 50 state, full-service platform and work with regional and national business clients to solve legal challenges.

Intellectual property procurement and litigation are a focal point.

We are experienced with patent, trademark, and copyright protections, IP portfolio management, licensing, brand protection, anti-counterfeiting, customs enforcement, and related client counseling. Social media infringement and domain takedowns are in our arsenal. Our team includes a registered patent attorney.

We represent startups and established businesses in a wide variety of fields. These include biotechnology, industrial design and manufacturing, grocery, healthcare benefits, food production, pharmacology, chemistry, electronics, telecommunications, and consumer products.

Other notable areas of practice include white collar defense, commercial litigation, construction, employment defense, professional liability defense, premises liability, product liability, and insurance matters.
