GRSM's expanded its Nevada footprint in 2021 with the opening of our Reno office. Attorneys here collaborate with colleagues in Las Vegas in support of our 50 state, national platform. Construction and commercial business disputes are our areas of depth. We are known for our insurance defense, insurance coverage, consumer protection litigation, and professional liability work with construction and design professionals, as well as employment litigation and risk management.

Additional areas of practice include employment litigation and risk management, director and officer claims, shareholder litigation, and class action defense.

GRSM attorneys in Reno and our affiliated office in Las Vegas have diverse backgrounds. We have served as judicial externs and interns, as deputy city attorney, and in the Nevada Attorney General's office. We receive recognition from *Nevada Business Magazine* and *Best Lawyers in America*® and belong to the Nevada Bar Association, Northern California and Nevada Association of Defense Counsel, and other legal and business associations.

We work hard and play hard. Many of our attorneys and staff take advantage of hiking and biking trails in the

summer and the nearby ski slopes in the winter.
