GRSM's 50 state platform was boosted by the 2014 opening of our office in Tampa. The office is our second location in Florida. With our expanded presence in Central and North Florida, GRSM attorneys have added depth to serve and represent clients in legal challenges involving construction, commercial litigation, employment, financial services, healthcare, insurance coverage and defense, personal injury, and premises liability.

Attorneys in Tampa not only closely collaborate with colleagues in Miami but also with their counterparts working in other legal disciplines firmwide in service of national clients. Additionally, our Tampa team supports clients throughout the Southeast region of the United States.

Located between the popular Water Street District and the revitalized Tampa Riverwalk area, our Tampa office is home to lawyers who commit to clients and to improving their communities. We are active in The Florida Bar and are members of the Florida Academy of Professional Mediators, Inc., the Florida Defense Lawyer Association, the Claims and Litigation Management Alliance, and The Junior Leagues of Tampa and St. Petersburg.
