GRSM's Tucson office, established in 2023, serves clients throughout Southern Arizona. The office works closely with our offices in Phoenix and Albuquerque to provide seamless service throughout the Southwest.

GRSM attorneys in Tucson, Arizona's oldest settlement and home to the University of Arizona, handle a range of complex matters, including intellectual property, unfair competition, national and international commercial litigation, and contract claims. We also handle personal injury, premises liability, professional liability defense, medical fraud, D&O litigation, product liability, and insurance coverage issues. Our industry experience includes technology, construction, and trucking and transportation, among others.

We are active members of the Arizona State Bar and the Pima County Bar Association, among other professional associations.
