GRSM's Midwest legal teams serve clients throughout Oklahoma. Our attorneys in Tulsa work statewide to represent and advise clients in healthcare, long-term care, energy, insurance, construction, and other sectors.

Complex civil litigation is a practice emphasis, and we are home to trial lawyers who have achieved early dismissals and favorable outcomes in high-exposure lawsuits in state and federal courts.

Core areas of counsel include medical malpractice, personal injury, general liability, commercial and business litigation, premises liability, construction defect claims, employment litigation, and professional malpractice defense.

Many attorneys here collaborate with colleagues in Dallas and throughout Texas, Arkansas, and Missouri. Our Oklahoma City location offers further convenience for clients and colleagues and extends GRSM's 50 state, full-service platform across the region and the United States.
